1 Introduction

This report aims to document our groups experiences with the groups first design sprint. We will be covering the following topics:

2 Technical background

2.1 Agile development

2.2 Scrum

2.2.1 Scrumwise

2.2.2 Scrum master

2.3 Development sprint

2.4 Backlog

2.5 ReactJS

2.5.1 Component based development

2.6 Vite

3 Sprint Goal

We had the goal of making a functional application, with navigational options, that we could use as a base for the next sprint by the end of this week.

The result of this week was a functional app, where you can navigate several pages. It is not the best looking, but is a good base to continue our work with. It has low cost and

4 Backlog

This is the current backlog for this project.

- Text input component is a work in progress.
- Login modal missing integration with project.

- Hypothetical reports on what can go wrong and access control solutions.
- React routing.
- Create Image slideshow component.

We also had a password strength checker planned as an optional task if we had the time.

5 Time

5.1 Participation

5.1.1 Joar Heimonen

5.1.2 Iselin Skorpen

5.1.3 Salim Said

5.1.4 Mostafa Mohammadi

5.1.5 Ibrar Hussain

5.1.6 Hassan Ali Bokhari

5.2 Time list

Here is a picture of our Time list, in addition to this as this we spent about 8 hours in various meetings within the group.

6 Reflection

This section will answer the following questions:

- Could you have done anything differently?
- What were you particularly satisfied with?

6.1 Could you have done anything differently?

Improving our team communication and collaboration could have improved our workflow a lot. Ensuring that everyone was on the same page when starting production of our application. We should've had a more refined sketch done beforehand to improve clarity and end goal.

6.2 What were you particularly satisfied with?

We achieved our goal of developing a functional application, which will serve as a foundation for the next week's sprint. This week's work provides us with a solid, low cost base which we can utilize to its fullest to continue our development.

7 Notes

8 Conclusion
